Curriculum Vitae

Software engineer

Matija Paravac

Software engineer

Date of birth: 30.07.1988
City: Sveta Nedelja, Croatia
Email: matijaparavac@gmail.com
Web:https://matijaparavac.github.io/
Years in development: 6+

ABOUT ME

Simple, responsible, focused person, perfectionist. DISC personality test result : SCI. I have beautiful wife and two kids, son and daughter. As a developer I'm very versatile and flexible. Through business and on college, I've worked with lots of different technologies. Even before I graduated, I was hired at AKD by the recommendation of prof. dr. sc. Markus Schatten. I still work there as a Senior software engineer. I'm responsible for the personalization system of national documents, and for personalization system of commercial ID cards. I actively participate in development of new projects and ideas. I know Java and .NET technologies well. I have experience with SOAP and REST services which I have gained in working with different national registers. Along with my job, I joined with my brother and with my brother-in-law and we started company TRIPOD. Some of our clients are: BBDO, IKEA, STAROPRAMEN, ERGOMED, IGOCKI, HTZ.
